## The Right Space at the Right Time

LOGOMO is a new culture and event centre and venue in Turku, and it opened as the main arena for Turku Culture Capital 2011. This is a great starting place for Logomo—straight at the top!

The 24,000 square metre building transformed from an old railway workshop into Logomo has created an amazing contrast of historical industrial milieu and a modern, spacious interior. Logomo delivers more than meets the eye.

The central location near the Central Railway Station is a great advantage, and when we add the rugged beauty of the architecture and top-notch functionality to the mix, it is clear that Logomo rises above most event arenas in Finland.

## Living Space

The strikingly diverse Logomo premises provide a great setting for a variety of events ranging from conferences to rock concerts and from banquets to opera. Logomo contains a wide range of spaces for all requirements, from intimate events for ten to dining for a thousand. We have maximised the versatility of the venue—most spaces can be downsized, upscaled, divided and combined.

The largest room at Logomo is the magnificent Logomo hall, which will open to the public in November 2011.

The secret to the versatility of the Logomo hall lies in the unique stand which contains an air cushion system for easy mobility. This guarantees the ability to transform the space for different types of functions. The Logomo hall can support events for up to 3,500 guests.

The stage can also be modified from 0 to 700m<sup>2</sup>, supporting larger acts and, where necessary, can be placed mid-floor, creating a modern amphitheatre.

## Event Space

World-class stars now have a great reason to include Turku in their tour cities: at Logomo you can turn up the volume. The Logomo hall can support a large audience of several thousands, and it is easy to maximise the standing room area.

In addition to concerts, opera, theatre and other cultural events, Logomo has the space and technology to arrange seminars, training sessions, meetings, conferences and congress events for large audiences. The large Logomo hall and smaller halls can be converted into auditoriums when necessary. Additionally, Logomo provides smaller conference and meeting rooms as well as the Logomo restaurant, which seats 250 guests.

With a venue like this, you can let your imagination run wild. Logomo provides fantastic facilities for all kinds of events, for instance fashion shows, ballet, launch events or even an entire indoor festival.

A rock concert may not warrant seating, so the stage in the Logomo hall can be moved to the end of the hall. For a more classical event the audience is usually placed as close to the stage as possible.

## Celebrate: your time, our place

Logomo provides its own high-class restaurant and quality catering partners to ensure the food is good, creative and brimming with ideas.

Our well-designed and strategically automated kitchen facilities make it possible to cater a three-course meal for a thousand guests. Our buffet will feed an even larger group.

Logomo hosts two kitchens: the smaller preparation kitchen which serves the restaurant, and a larger-scale catering kitchen. Logomo partners provide professional staff, and if you want to bring, for example, your own chefs, Logomo provides excellent facilities to work together with in-house catering.

In the autumn of 2012 Logomo opens its doors to a 250-seat restaurant venue intended for versatile use. In future you may find a series of interesting pop-up restaurants or different theme kitchens here!

## Creative Spacing

On your left you can see Logomo without its roof. The overall 24,000 square metres are divided into the LO, GO and MO wings, which all provide event spaces for hire.

The LO wing houses the halls LOGI 1 and LOGI 2, which can be combined into a large space when necessary. You will also find the LOGI studio space here. From 2013 you will also find work spaces for creative economy here.

The GO wing at the heart of Logomo contains the large and versatile Logomo hall, which provides a fantastic arena for any event, be it opera, heavy metal, poetry reading or ballet. The Middle and Top floors in the GO wing also contain box seats and conference rooms.

The MO wing is home to MOVE 1 and MOVE 2 halls. The first can also be used as a banquet or VIP space, the second is a static auditorium. The MO hall will contain work spaces for creative cluster companies.

You will find more detail and facts on the venue on the following pages.
